Equipping Church Leaders to finish the Great Commission

PROJECT
ZERO

LETTER FROM THE PRESIDENT

Welcome to Teleo University. We are a global distance education institution committed to equipping pastors and church leaders with world-class practical ministry training without leaving their churches and networks of ministry relationships. Teleo University partners with our parent organization, T-Net International, to offer degrees to the more than 11,000 pastors and church leaders participating in over 700 training centers in 40 countries in Africa, Asia, and the Americas.

Teleo is a Koine Greek word that means 1) *to bring to a close, to finish*, or 2) *complete or fulfill a command*. In the New Testament, the Apostle Paul used *Teleo* in 2 Timothy 4:7, “I have fought the good fight, I have finished the race.” Again, in John 19:30, as Jesus died on the cross for our salvation, He said, “It is finished.” *Teleo* captures our passion for finishing the Great Commission by being and making disciples of all nations.

In Acts 1:8 and Matthew 28, Jesus told his followers that they would be His witnesses in their cities, their countries, and throughout the whole world until the Great Commission was finished. The **Mission** of T-Net, or Teleo-Network, is to coach pastors and church leaders to ***finish*** the Great Commission in their congregations, regions, and every country of the world. Finishing the Great Commission in every country of the world so that no nation is unreached is what we call **PROJECT ZERO** because the mandate of “all nations” or “all ethnos” ends at ZERO. Teleo University supports this global initiative by providing affordable, accessible, accredited degrees to pastors and ministry leaders seeking to finish the Great Commission by multiplying disciple makers and initiating saturation church planting.

We believe the Great Commission can and will be *finished*. We believe the whole world will be filled with the knowledge of the glory of God. It is our all-consuming passion to do everything we can, through the power of the Holy Spirit, to see it through. T-Net International is committed to establishing an indigenously led and funded, multiplying, disciple making, church planting, and revitalization movement in each of the more than 230 countries of the world and coaching them until the Great Commission is finished. I can think of no greater pursuit in our lifetime.

ABOUT TELEO UNIVERSITY

HISTORY AND HERITAGE

The Teleo University story began in **1991** when T-Net International was founded. T-Net's vision started with Bill Hull, a pastor committed to returning his church and others to their disciple making roots. While establishing his church in disciple making, Bill wrote several books showing how the Gospels describe in detail Jesus' method for making disciples and how we can use His approach. Hull brought in church consultant Bob Gilliam to develop the process for instructing churches, and in 1991 T-Net (which then stood for *Training Network*) was born under the umbrella of the Evangelical Free Church of America (EFCA). We look to **1991 as the year of our school's beginning** because the core principles and programs we offer now are the same tested and tried principles we have taught for over a quarter of a century.

In **1996** T-Net became an independent, interdenominational, non-profit ministry. In 1998 Bob Gilliam took over as President while Bill Hull returned to pastoral ministry. "As we have progressed over the years," Gilliam says, "we have learned a great deal about what works and what doesn't in helping churches bring people to fullness in Christ." Consequently, the training has been tested and refined over the years to incorporate new insights both from lessons learned in T-Net churches and those gleaned from other ministries.

In **1999** T-Net was invited to India. T-Net has continued to expand its focus beyond US churches to the many nations where T-Net trains pastors who otherwise have limited opportunities for training in Bible study methods and ministry.

In **2012** T-Net's international pastor training center courses were recognized for degrees by a graduate school of theology in Minneapolis, Minnesota, USA. T-Net's course material had long been used for Doctor of Ministry credit by many of the top seminaries in the United States.

In **2018** T-Net founded Teleo University to serve T-Net's over 7300 pastors from 30 countries. Dr. Klopfenstein is leading T-Net and Teleo University to finish the Great Commission in every nation through the **Project Zero** initiative. T-Net will continue to train international pastors to multiply disciple making churches. And Teleo University will offer distance education studies and degrees built upon T-Net's rigorous training program. We follow the principle found in 2 Timothy 2:2, "Teach faithful men who can teach others also" until the Great Commission is finished... **Because the Mandate ENDS AT ZERO.**

MISSION

Our Mission is to provide affordable, accessible, accredited education to pastors and ministry leaders who are seeking to *finish* the Great Commission through multiplying disciple makers and initiating saturation church planting.

DISTINCTIVES

Distance Education for Non-Traditional Students: Pastors that Remain On-the-Job

Teleo University plays a unique role in Theological Education by Extension. Teleo University's focus is on *finishing* the Great Commission of Jesus (Matthew 28:19-20) in each nation of the world by empowering indigenous pastors and church leaders. Teleo University only seeks students who are currently pastors, church planters, or key lay leaders. The average age of these non-traditional students is between 30 to 55 years old. These Christian leaders do not need to leave their ministries and families to attend classes. Teleo University offers no resident campus learning. Instead, students must remain in their local church ministry to implement what they learn in this unique distance education program.

Teleo University is not in competition with traditional Bible Colleges and Seminaries. Teleo University's core materials have been taught at a master's and doctoral level by several of the most prominent evangelical seminaries: Bethel Seminary, Columbia International University, Dallas Theological Seminary, Trinity Divinity School, Western Theological Seminary, West Africa Theological Seminary, and more.

Teleo University professors share their knowledge with students through a cross-culturally tested curriculum, printed lectures, and, more recently, web-based video coaching (currently English only). The course curriculum is translated into multiple languages. Therefore, Teleo University employs correspondence courses where students only meet their professors through printed lectures and perhaps video coaching but without personal interaction. However, our print delivery, supported by local study groups and experienced facilitators, empowers our students to receive practical theological education without leaving their ministry or network of relationships.

By gathering students into study groups called T-Net Training Centers, students benefit from carefully prepared study materials, collaboration with fellow students, and facilitators who have studied and applied this curriculum in their ministries. Furthermore, the Internet now offers more resources and allows student exposure to instructors, course authors, and subject matter experts through video coaching.

Trained as Trainers–The Disciple Making Model

Teleo University students participate in local study groups called T-Net Training Centers to complete some assignments and enjoy vibrant student life interaction. Teleo University requires that pastors learn as students and then apply what they learn by leading, training, and implementing it in their local churches. Finally, every student must take on the disciple making mindset of training other pastors and church leaders (2 Timothy 2:2). Within the T-Net Training Centers, students form training teams to fulfill teaching practicum requirements of training this material to other pastors and church leaders.

INSTITUTIONAL GOALS

To accomplish our Mission, Teleo University seeks to...

1. Keep the cost of education accessible to all students regardless of their financial means.
2. Provide students with learning resources adequate to meet the learning objectives of every study program.
3. Provide students with accredited degrees and certificates.
4. Complement not compete with existing Bible Colleges and Seminaries.
5. Recruit and train existing pastors and church leaders so they need not leave their current ministry positions but can apply their learning in their churches.
6. Make finishing the Great Commission the primary objective of all training programs.
7. Training students to revitalize local churches as disciple making churches.
8. Empower students as trainers and equippers who multiply disciple making training and saturation church planting to finish the Great Commission.

VALUES

Teleo University's core values define the character of the institution. Through our commitment to these values, we preserve that which has made Teleo University effective in accomplishing our unique mission:

- **Applied Learning:** Requiring students to have an on-the-job training context so that pastors and church leaders apply their knowledge in real-life ministry.
- **Excellence in Training:** Providing uniquely practical and useful training that is of the highest quality possible.
- **Revitalizing Churches** Training church leaders to effectively make **changes** in local churches resulting in measurable life change in individual church members.
- **Sequential Disciple Making:** Training church leaders to use a phased biblical definition of a disciple that includes **“All”** the beliefs, values, behaviors that Jesus commanded.
- **Trainer Practitioners:** Utilizing faculty and study group facilitators who are experienced pastors that have implemented the principles of disciple making that they teach.
- **Train to Finish:** Training pastors not just to work at it, but to **“finish”** the Great Commission in their specific neighborhood, city, region, or country.
- **Transferability:** Providing training that is **transferable** and multiplied from leader to leader and from church to church.
- **Whole-Church Disciple Making:** Training pastors and church leaders to use **every ministry** in their church to work together to produce the disciple Jesus intended.

INSTITUTIONAL LEARNING OUTCOMES

A student completing a degree from Teleo University will

1. **Spiritual Formation:** Continue to grow as a Christian, cultivating ethical values and a life of personal integrity, personally and as a pastor, and learning to maintain life balance with Christ as Lord of all areas of life.
2. **Great Commission:** Focus their life and ministry on *finishing* the Great Commission within defined areas and regions.
3. **Pastoral Leadership:** Implement an intentional disciple making “philosophy of ministry” for the local church and develop the skills and knowledge required to be an effective disciple making pastoral leader who equips lay leaders, church planters, and fellow pastors (2 Timothy 2:2).
4. **Bible Knowledge and Doctrine:** Know how to study the Bible to think biblically and theologically and teach others to do so.
5. **Communication:** Develop speaking, writing, reading, and interpersonal skills to communicate the Gospel and the love of Christ.
6. **Cross-Cultural Awareness:** As a Christian, learn how to recognize, appreciate, and engage other cultures within their region, country, and the world.

GRADUATION AND PLACEMENT OUTCOMES

Students admitted to Teleo University are chosen based on spirituality, ministry zeal, academic ability, and their current role as a pastor, Bishop, church planter, or church leader.

Graduation Rates: The Teleo University graduation rate for 2013-2019 was 86%.

Graduate Placement Rates: Because Teleo University is an educational institution for those already in vocational or bivocational pastoral ministry or significant church leadership, our placement rates are virtually 100%.

STATEMENT OF FAITH

Teleo University is an Evangelical Protestant religious organization that holds to the essentials of biblical orthodoxy. The following statement addresses seven essentials upon which Christians have agreed throughout the centuries. These statements are inclusive rather than exclusive. We are eager to partner with denominations, churches, and other religious organizations that embrace the Christian faith's essentials. To maintain continuity and consistency, Teleo University expects faculty, administration, and students to agree with, personally adhere to, and support the following doctrinal statement:

We Believe:

1. The Scriptures, both Old, and New Testaments, to be the inspired Word of God, without error in the original writings, the complete revelation of His will for the salvation of men and women and the Divine and final authority for Christian faith practice.
2. In one God, creator of all things, infinitely perfect and eternally existing in three persons—Father, Son, and Holy Spirit.
3. That Jesus Christ is true God and true man having been conceived of the Holy Spirit and born of the Virgin Mary. He died on the cross as a sacrifice for our sins, according to the Scriptures. Further, He arose bodily from the dead, ascended into heaven, where at the right hand of the Majesty on High, He is now our High Priest and Advocate.
4. The ministry of the Holy Spirit is to glorify the Lord Jesus Christ, and during this age, to convict men and women, regenerate the believing sinner, and indwell, guide, instruct, and empower the believer for godly living and service.
5. That mankind was created in the image of God but fell into sin and is, therefore, lost and only through regeneration by the Holy Spirit can salvation and spiritual life be obtained.
6. That the shed blood of Jesus Christ and His resurrection provide the only ground for justification and salvation for all who believe. That the new birth comes only by grace through faith in Christ alone and that repentance is a vital part of believing, but is in no way in itself a separate and independent condition of salvation; nor are any other acts such as confession, baptism, prayer, or faithful service to be added to believing as a condition of salvation.
7. In the bodily resurrection of the dead; of the believer to everlasting blessedness and joy with the Lord; of the unbeliever to judgment and everlasting conscious punishment.

ADMISSIONS

GENERAL ADMISSION REQUIREMENTS

Students admitted to Teleo University are chosen based on spirituality, ministry zeal, academic ability, and their current role as a pastor, Bishop, church planter, church leader, or spouse. Teleo University is an educational institution for those who are already in vocational or bi-vocational pastoral ministry and church leadership.

Academic Requirements

1. **Certificate:** Admission requires the student to currently serve as a pastor or church leader with authorization to implement ministry assignments in a local church context.

3. **Bachelor's Degree:** Students seeking the Bachelor of Pastoral Ministry begin in the Diploma of Pastoral Ministry program. They can upgrade to a bachelor's degree when they complete an extra year of general studies (30 semester credits). Teleo University does not offer the government required bachelor's degree general education courses but welcomes the transfer of these general education credits from partner schools and other institutions. For more information, refer to the Transfer of Credits Policy and General Studies Policy. There are three options to upgrade from a diploma of pastoral ministry to a bachelor of pastoral ministry:

The DMin is a natural continuation of the MDiv and therefore is not available to Master of Divinity graduates from other institutions.

***General Educational Development (GED)** tests are a group of four subject tests which, when passed, provide certification that the test taker has American or Canadian high school-level academic skills.

Spiritual Requirements: Belief and Character

Applicants must agree with, personally adhere to, and support Teleo University's Doctrinal Statement. By completing and signing the application, the applicant promises to respect and comply with the student standards of conduct of Teleo University. Applicants are to give evidence of Christian character and maintain a lifestyle consistent with biblical standards of a daily walk with Christ. Teleo University serves students in many cultures worldwide, and we acknowledge that some practices will be considered acceptable by Christians in one culture but not another. Therefore, Teleo University insists that the Scriptures guide godly conduct for both students and faculty. Where Scripture is clear, we will be clear, but where it is not, there will be freedom and grace.

Christian Service Requirements

Serving is an integral part of the Christian life. Students enrolled in Teleo University are non-traditional students serving as pastors, church planters, and Christian leaders in the local church. Christian service is not something added to the course work. It is integrated into the entire educational experience at Teleo University at both the undergraduate and graduate levels. Serving and loving non-Christians and helping disciples grow is a way of life for those seeking to finish the Great Commission.

Policy and Provision for Female Students

Teleo University is proud to serve all evangelical denominations in training pastors and church leaders to finish the Great Commission. Our doctrinal statement is intentionally inclusive. It states what Christians have believed through the centuries around the world. Most denominations offer more detailed statements on specific doctrines, but Teleo University only requires agreement on these essentials.

Denominations and churches often hold different views on women in ministry, but Teleo University does not impose either view on students or denominational partners.

- **Complementarian:** This view generally teaches that while women are created with equal value to men in the eyes of God, they have been delegated a different role in the church that does not allow them to teach or to exercise authority over adult males.
- **Egalitarian:** This view generally teaches that in the church, women are free to teach and exercise authority and serve in precisely the same way as men.

Policy Statement: All female pastors, evangelists, church planters, and spouses who desire to enroll in Teleo University, whether they are complementarian or egalitarian, will be allowed to do so. Provisions have been made within the curriculum and assignments to accommodate female students from denominations or churches that hold a complementarian position or whose cultural context limits them.

Teleo University, in its employment, educational, and admissions policies, does not discriminate by race, color, gender, nationality, age, disability, or ethnic origin.

See the section below for more details on what qualifies as transfer credit or CLEP tests for these general education requirements.

GENERAL STUDIES POLICY

Some undergraduate transfer students will have completed their general studies at a two-year community college or secular university. However, because most of our students are currently serving as pastors, many will be transferring from Bible Colleges where they experienced integrating biblical and general studies. This integration provides exposure to a breadth of subjects but allows students to evaluate them from a biblical worldview. Developing the ability to biblically

assess and analyze concepts and philosophical issues presented in general studies is essential for pastors and Christian leaders. In light of this, consider the following policy statement:

General studies or general education requirements imply a broad exposure to diverse subject areas from several disciplines. T-Net School of Theology does not offer general studies. Still, it follows the Minnesota Office of Higher Education guidelines and requirements in evaluating the transcripts of undergraduate students transferring credits to Teleo University:

Bachelor degree programs should include a minimum of 45 quarter or 30-semester credits distributed across at least the following four areas. Included in the 45 (quarter) or 30 (semester) credits should be at least 6 (quarter) or 4 (semester) credits in each of the four fields of study. Select the remaining general education credits from one or more of these four categories (the typical distribution of credits is listed below):

- Communication – 9 credits (e.g., composition, public speaking, writing courses)
- Humanities/Fine Arts – 9 credits (e.g., modern and classical languages, history, literature, linguistics, philosophy, archaeology, art, music, graphics)
- Natural Science/Mathematics – 6 credits (e.g., physical science, biology/life science, physics, chemistry, mathematics, statistics)
- Social/Behavioral Sciences – 6 credits (e.g., psychology, sociology, anthropology, political science)

The examples provided are only illustrative. Courses from other disciplines may be used to meet the general studies requirements if they fit naturally into one of the four areas. Transcripts are evaluated accordingly. Teleo applies two limitations in transcript evaluation for General Studies Policy requirements:

1. Courses that qualify as biblical/theological studies, although having general education value in other contexts, do not qualify as general studies within biblical higher education.
2. A course with three prerequisites does not qualify as general studies. The course is too specialized to be classified as “general” and should be incorporated instead into a major or minor.

ATTENDANCE POLICIES FOR STUDENTS

As a distance education institution, Teleo University does not offer traditional classroom education. Participation is defined differently for distance learning. Teleo University expects all students to complete all directed instructional activities and participate in a local study group facilitated by T-Net International. We measure student attendance for courses by **active participation** as described in the individual course.

ACADEMIC REQUIREMENTS AND SATISFACTORY PROGRESS

The passing grades in courses are:

- For a certificate—an average letter grade of “C” or higher for every course
- For undergraduate studies (Diploma or Bachelor’s)—an average letter grade of “C” or higher for every course
- For graduate studies (Master’s or Doctorate)—an average letter grade of “B” or higher for every course
- Course assignments that fail to earn a passing grade are marked “incomplete” or “warning” and cannot be used to satisfy any of the requirements of graduation

CATALOG USE

Students are responsible for fulfilling their academic program's requirements as documented in the catalog for the academic year they were admitted, readmitted, or declared their program.

A student who re-enters a Teleo University program after an absence of two or more years must meet the current program's requirements as documented in the catalog for that academic year unless he or she receives written approval. This written permission must be approved and filed with the Dean's office before the student re-enters the program.

APPEAL FOR CHANGE OF GRADE

A student may appeal for a change of grade when they believe there was an error in computing the student's final grade for a course or that they were graded unfairly. The student must initiate the change by contacting the instructor within two months after the grade posting. If the issue cannot be resolved between the student and the instructor, the student must appeal to the Dean within four months of the grade posting. After four months, the grade is considered final, and the student cannot appeal the grade.

STUDENT RESPONSIBILITY

Students are responsible for knowing degree requirements, participating in the courses offered, and completing all necessary assignments that will enable them to finish their degree or diploma program. It is also the student's responsibility to know Teleo University's ethical expectations for students and regulations for the standard of work required to continue in the program.

FORMS AND REQUIREMENTS FOR GRADUATION

To be eligible to graduate, the following forms and requirements must be submitted and completed:

1. Submit the Teleo Application for Graduation filled out and signed by the student.
2. Pay the graduation fee of \$50.00 and have no outstanding tuition or fee payments.
3. Continued display of Christian character and service in ministry.
4. Maintain a minimum cumulative GPA of 2.0 for undergraduate (diplomas and bachelor degrees); and 3.0 for graduate (master's or doctoral degrees).
5. Be recommended by the faculty of the university and the registrar.

STUDENT SERVICES

STUDENT LIFE

Standards of Conduct

Teleo University trains pastors and church leaders who are currently serving in ministry. Paul declares that those leading the church must be blameless and above reproach (Titus 1:6-7). In 1 Timothy 3:2-3, Paul further states, *Now the overseer is to be above reproach, faithful to his wife, temperate, self-controlled, respectable, hospitable, able to teach, not given to drunkenness, not violent but gentle, not quarrelsome, not a lover of money.* Therefore, Teleo University holds these same expectations of biblical conduct for our students. Teleo University allows freedom of behavior where the Bible permits freedom and expects restraint, where the Bible gives clear commands. As church leaders and disciple makers, Teleo students should avoid every appearance of dishonesty, deception, lack of integrity, immorality, abusive speech, and impropriety.

Mentoring and Accountability

Teleo University recognizes that disciple making is a life-on-life relational experience. Therefore, Teleo seeks to ensure that every student has two supportive relationships during their time as a student. First, Teleo aims to connect each student with a mentor who has previously completed the same course of study and has successfully implemented the required assignments. Secondly, students are placed in peer accountability partnerships with fellow students to provide academic and personal life support and accountability.

Community Life

Teleo University is a distance learning institution that values vital Christian fellowship. Therefore, students are required to apply their learning in the context of relationships. Students fulfill assignments within their local church. They do so through one-on-one mentoring, small group disciple making and leadership equipping, mid-size group fellowships, and whole-church gatherings. However, it is vital that church leaders also connect with peers. Therefore, Teleo University connects students in face-to-face study groups whenever possible or assigns a mentor if no study group is available. The primary way students enjoy this community life is by participating in a T-Net Training Center "study group" near their home or church. T-Net Training Center study groups are not official classrooms taught by faculty. They are a cohort of pastors and church leaders seeking to learn and implement the Teleo University programs' essential principles. Program graduates or advanced students facilitate these T-Net Training Center study groups. Participants benefit from a fixed schedule, facilitated discussions, and collaboration with other pastors who share their goals and values.

LEARNING AND EDUCATIONAL RESOURCES

Teleo University is a global distance education institution. Therefore, we have no campus with classrooms, housing, dining, or a physical library. Our digital learning resources are all located through the www.teleouniversity.org website or the "My Teleo" online campus management student portal. Teleo University also seeks to establish student access to library resources in each language and country where students participate in local study groups.

TELEO UNIVERSITY SCHOOLS AND PROGRAMS

GENERAL OBJECTIVES OF ALL TELEO UNIVERSITY PROGRAMS

Teleo University's focus is to equip local pastors to revitalize their churches as disciple making churches, multiplying leaders and developing church planters who will seek to finish the Great Commission in their churches, neighborhoods, regions, and countries. Because of our singular focus of finishing the Great Commission, we offer a limited number of programs and degrees. We specifically avoid offering the many ministry preparation degrees commonly available at other Bible Colleges and Seminaries. Instead, we seek to complement what they offer by providing our unique and focused disciple making training for those currently serving as pastors and church leaders. The following is a list of the general objectives we hold for all students in every program:

- Implement an intentional disciple making “philosophy of ministry” for the local church
- Maintain life balance and personal integrity with Christ as Lord of all areas of life
- Develop the skills and knowledge required to be an effective pastoral leader
- Sustain a pattern of developing lay leaders, church planters, and fellow pastors
- Focus life and ministry on *finishing* the Great Commission within defined areas and regions
- Think biblically and improved preaching and written communication skills
- Develop a hunger for life-long learning and personal development

FIELD MINISTRY DIVISION

FIELD PROJECT (FP)

FP151 Field Project Formation: Local Church Revitalization (1 credit – Certificate of Pastoral Ministry)

The Field Project courses involve application in the local church of what students learn in their study program. The Field Project Formation course covers the first two semesters (8 months) of the program. In addition to initiating new ministry assignments, the student will gather initial data on the local church where they implement ministry during this time. Students will collect contextual information about the religions, cultures, languages, and ethnicities surrounding the church. Initial data from the church will include worship attendance, average financial giving, lay leadership, the number and types of disciple making small groups, and the number of new believers recently added to the church.

FP252 Field Project Implementation in the Local Church (3 credits – Certificate of Pastoral Ministry)

The Field Project Implementation course extends over six semesters (two years). Students will initiate most of the ministry assignments for the program during the Field Project Implementation and record ministry progress. Documented areas include worship attendance,

average weekly giving, disciple making leader training, disciple making group multiplication, evangelism results, and Bible study methods training. Students gather additional documentation for Outreach Discovery Bible Study church planting, disciple making curriculum development, philosophy of ministry, total disciple makers in the Ministry Community, and Great Commission expansion results beyond the local church.

FP253 Field Project Report (1 credit – Certificate of Pastoral Ministry)

The Field Project Report documents how well the pastor, staff, and lay leaders have implemented the intentional disciple making principles and actionable steps in the local church. Field Project Report course covers the last two semesters (8 months) of the program. The report will seek to identify both successes and failures in revitalizing the local congregation as an intentional disciple making congregation of believers. The report includes an analysis of data collected throughout the three years of implementation. Students give attention to contextualizing the training to the congregation's ethnicity/culture and surrounding cultures. Insights gleaned should be stated as principles and listed in summary. Also, include in the report summary questions for further study.

MINISTRY PRACTICUMS (MP)

Students must learn to accomplish ministry expansion through others rather than their direct efforts in these ministry practicums.

Certificate of Pastoral Ministry

Students must learn to accomplish ministry expansion through others rather than their direct efforts in these two ministry practicums. Students facilitate these ministry practicums within the network of T-Net Training Center study groups. These study groups provide fellowship, student life activity, collaboration, and a consistent schedule to help students complete their learning experience.

Following the biblical pattern of disciples making disciples, students must recruit, mentor, and facilitate a study group of students in a next-generation T-Net Training Center. While taking courses 1-5, the student and others on their T-Net Training Center team recruit next-generation center pastors and church leaders as students. After Course 5, the training center team begins the process with their 1st generation training center class. The 2nd generation training centers start as the first training team take courses 9 and 10. Therefore, this Ministry Practicum's goal is to help students learn to accomplish more through leading others than through direct ministry involvement.

Certificate of Pastoral Ministry

- MP261 Coaching and Supervising a 1st Generation Training Center (6 semesters, C1-6) (3 credit)
- MP262 Coaching and Supervising 2nd Generation Training Centers (2 semesters, C1-2) (1 credit)

TEACHING PRACTICUMS (TP)

Certificate of Pastoral Ministry

In these teaching practicums, a student must recruit pastors from a selected region to join a T-Net Training Center study group. In the teaching practicum, the student will facilitate learning empowered by what the student has learned and implemented in their ministry. Typically, two or three students will form a training team where each student has recruited 5-10 pastors to attend the training center. Students may divide the sessions between them according to how best to facilitate the study group. However, each student is responsible for reviewing and preparing as if they were to facilitate every session. Students have already taught this material to leaders within their churches. However, by facilitating training for their peers (peer-coaching), their learning heightens as they prepare to facilitate the cohort learning experience. Mentors and country directors supervise these training center study groups and their facilitator teams.

FIELD MINISTRY DIVISION

FIELD PROJECT (FP)

FP351 Field Project Formation: Local Church Revitalization (1 credit – Diploma/Bachelor of Pastoral Ministry)

The Field Project courses involve application in the local church of what students learn in their study program. The Field Project Formation course covers the first two semesters (8 months) of the program. In addition to initiating new ministry assignments, the student will gather initial data on the local church where they implement ministry during this time. Students will collect contextual information about the religions, cultures, languages, and ethnicities surrounding the church. Initial data from the church will include worship attendance, average financial giving, lay leadership, the number and types of disciple making small groups, and the number of new believers recently added to the church.

FP452 Field Project Implementation in the Local Church (3 credits – Diploma/Bachelor of Pastoral Ministry)

The Field Project Implementation course extends over six semesters (two years). Students will initiate most of the ministry assignments for the program during the Field Project Implementation and record ministry progress. Documented areas include worship attendance, average weekly giving, disciple making leader training, disciple making group multiplication, evangelism results, and Bible study methods training. Students gather additional documentation for Outreach Discovery Bible Study church planting, disciple making curriculum development, philosophy of ministry, total disciple makers in the Ministry Community, and Great Commission expansion results beyond the local church.

FP453 Field Project Report (1 credit – Diploma/Bachelor of Pastoral Ministry)

The Field Project Report documents how well the pastor, staff, and lay leaders have implemented the intentional disciple making principles and actionable steps in the local church. Field Project Report course covers the last two semesters (8 months) of the program. The report will seek to identify both successes and failures in revitalizing the local congregation as an intentional disciple making congregation of believers. The report includes an analysis of data collected throughout the three years of implementation. Students give attention to

contextualizing the training to the congregation's ethnicity/culture and surrounding cultures. Insights gleaned should be stated as principles and listed in summary. Also, include in the report summary questions for further study.

FP463 (ADIP) Ministry Project Report (3 credits)

Students have designed and implemented a ministry project plan to finish the Great Commission in a specific region using disciple making church saturation throughout the twenty-four months before this final course. They have done so by recruiting and training other pastors in their target region to revitalize their congregations as disciple making churches and employ saturation church planting to ensure that a church is accessible to everyone in the region. At this final core module, the initial focus is on students reporting their ministry projects' results. Every student writes and presents a ministry project summary report. This 10-15 page summary report allows time for presentation, discussion, and collaboration between the cohort members. Students also continue to learn by overseeing and supporting others as they facilitate learning for new generations of disciple making pastors.

MINISTRY PRACTICUMS (MP)

Diploma/Bachelor of Pastoral Ministry (DPM/BPM)

Students must learn to accomplish ministry expansion through others rather than their direct efforts in these two ministry practicums. Students facilitate these ministry practicums within the network of T-Net Training Center study groups. These study groups provide fellowship, student life activity, collaboration, and a consistent schedule to help students complete their learning experience.

Following the biblical pattern of disciples making disciples, students must recruit, mentor, and facilitate a study group of students in a next-generation T-Net Training Center. While taking courses 1-5, the student and others on their T-Net Training Center team recruit next-generation center pastors and church leaders as students. After Course 5, the training center team begins the process with their 1st generation training center class. The 2nd generation training centers start as the first training team take courses 9 and 10. Therefore, this Ministry Practicum's goal is to help students learn to accomplish more through leading others than through direct ministry involvement.

MP461	Coaching and Supervising a 1st Generation Training Center (6 semesters, C1-6) (3 credit)
MP462	Coaching and Supervising 2nd Generation Training Centers (2 semesters, C1-2) (1 credit)

TEACHING PRACTICUMS (TP)

Diploma/Bachelor of Pastoral Ministry (DPM/BPM)

In these teaching practicums, a student must recruit pastors from a selected region to join a T-Net Training Center study group. In the teaching practicum, the student will facilitate learning empowered by what the student has learned and implemented in their ministry. Typically, two or three students will form a training team where each student has recruited 5-10 pastors to attend the training center. Students may divide the sessions between them according to how best to facilitate the study group. However, each student is responsible for reviewing and preparing as if they were to facilitate every session. Students have already taught this material to leaders within their churches. However, by facilitating training for their peers (peer-coaching), their learning heightens as they prepare to facilitate the cohort learning experience. Mentors and country directors supervise these training center study groups and their facilitator teams.

The course presents spiritual disciplines in five categories: inward disciplines, outward disciplines, corporate disciplines, ministry disciplines, and character disciplines. A believer's personal spiritual development is a partnership where God is at work within the believer to bring them into conformity to the image of Christ while the believer is submitting to and cooperating with this work. In their desire to know God and be known by Him, Church history reveals men and women who have developed disciplines that are tremendous tools to cooperate with God's work within the believer. Disciplines give God access, time, and opportunity to transform believers to become more like Jesus. Students will write a research position paper on church planting theology and learn by overseeing and supporting others who facilitate learning for new generations of disciple making pastors.

FIELD MINISTRY DIVISION

FIELD PROJECT (FP)

FP551 Field Project Formation: Local Church Revitalization (1 credit – Master of Divinity)

The Field Project courses involve application in the local church of what students learn in their study program. The Field Project Formation course covers the first two semesters (8 months) of the program. In addition to initiating new ministry assignments, the student will gather initial data on the local church where they implement ministry during this time. Students will collect contextual information about the religions, cultures, languages, and ethnicities surrounding the church. Initial data from the church will include worship attendance, average financial giving, lay leadership, the number and types of disciple making small groups, and the number of new believers recently added to the church.

FP652 Field Project Implementation in the Local Church (3 credits – Master of Divinity)

The Field Project Implementation course extends over six semesters (two years). Students will initiate most of the ministry assignments for the program during the Field Project Implementation and record ministry progress. Documented areas include worship attendance, average weekly giving, disciple making leader training, disciple making group multiplication, evangelism results, and Bible study methods training. Students gather additional documentation for Outreach Discovery Bible Study church planting, disciple making curriculum development, philosophy of ministry, total disciple makers in the Ministry Community, and Great Commission expansion results beyond the local church.

FP653 Field Project Report (1 credit – Master of Divinity)

The Field Project Report documents how well the pastor, staff, and lay leaders have implemented the intentional disciple making principles and actionable steps in the local church. Field Project Report course covers the last two semesters (8 months) of the program. The report will seek to identify both successes and failures in revitalizing the local congregation as an intentional disciple making congregation of believers. The report includes an analysis of data collected throughout the three years of implementation. Students give attention to contextualizing the training to the congregation's ethnicity/culture and surrounding cultures. Insights gleaned should be stated as principles and listed in summary. Also, include in the report summary questions for further study.

FP663 (MMin) Ministry Project Thesis (4 credits)

Students have designed and implemented a ministry project plan to finish the Great Commission in a specific region using disciple making church saturation throughout the twenty-four months before this final course. They have done so by recruiting and training other pastors in their target region to revitalize their congregations as disciple making churches and employ saturation church planting to ensure that a church is accessible to everyone in the region. At this final core module, the initial focus is on students reporting their ministry projects' results. First, every student writes and presents a ministry project summary report. This 10-15 page summary report allows time for presentation, discussion, and collaboration between the cohort members. Students then cluster in triads to verbally present their ministry project thesis for peer review. After submitting a draft of their full thesis for final editing and review by the university faculty and staff, the student completes a verbal presentation to a faculty committee. The student will then make any final changes required by the committee before submitting the final draft. Students also continue to learn by overseeing and supporting others as they facilitate learning for new generations of disciple making pastors.

MINISTRY PRACTICUMS (MP)

Master of Divinity (MDiv)

Students must learn to accomplish ministry expansion through others rather than their direct efforts in these two ministry practicums. Students facilitate these ministry practicums within the network of T-Net Training Center study groups. These study groups provide fellowship, student life activity, collaboration, and a consistent schedule to help students complete their learning experience.

Following the biblical pattern of disciples making disciples, students must recruit, mentor, and facilitate a study group of students in a next-generation T-Net Training Center. While taking courses 1-5, the student and others on their T-Net Training Center team recruit next-generation center pastors and church leaders as students. After Course 5, the training center team begins the process with their 1st generation training center class. The 2nd generation training centers start as the first training team take courses 9 and 10. Therefore, this Ministry Practicum's goal is to help students learn to accomplish more through leading others than through direct ministry involvement.

MP661	Coaching and Supervising a 1st Generation Training Center (6 semesters, C1-6) (5 credit)
MP662	Coaching and Supervising 2nd Generation Training Centers (2 semesters, C1-2) (1 credit)

TEACHING PRACTICUMS (TP)

Master of Divinity (MDiv)

In these teaching practicums, a student must recruit pastors from a selected region to join a T-Net Training Center study group. In the teaching practicum, the student will facilitate learning empowered by what the student has learned and implemented in their ministry. Typically, two or three students will form a training team where each student has recruited 5-10 pastors to attend the training center. Students may divide the sessions between them according to how best to facilitate the study group. However, each student is responsible for reviewing and preparing as if they were to facilitate every session. Students have already taught this material to leaders within their churches. However, by facilitating training for their peers (peer-coaching), their learning heightens as they prepare to facilitate the cohort learning experience. Mentors and country directors supervise these training center study groups and their facilitator teams.
